

Curse Hunters

A Digital
Quest to Save
the Universe

IOS 11 or later for Apple | Android 4.4 for Samsung

Welcome to CurseHunters

In this game, you as the adult, will take on the role of CAPTAIN BÖHRING, an aged adventurer leading a young hero or team of heroes to save the world.

Because you are playing from your phone, the prompts will be directed primarily at your character, and **you will need to read out or relay instructions to your companions in character.**

Introduction

- There are 8 tasks in total, each of which takes a different amount of time and effort.
- Most teams take about 2 hours on average to complete.
- Progression in the game requires inputting photos, text, and audio. None of this info is published or retained by Bram Stoker Festival or by Actionbound after the event.

If you do want to share your adventure though, we'd love to see. Use the social media handles **#CurseHunters2020** and **#BramStokerFestival**.

You'll see other adventurers there too.

Set up

In preparation for what's to come, you will need:

- Access to a **kitchen**, with a **variety of drinkable liquids**.
- A bunch of **old clothes and/or costume pieces**. The more varied in colour and type, the better.
- Space and **materials to build a fort**.
- Pens/markers, paper, and any other **crafty materials**.
- Finally, and very importantly: before the game begins, we'll need you to **HIDE an inappropriately large amount of treats in your bathroom**.

These will be discovered by your young companions at the end and, in the absence of trick or treating this year, we hope its an opportunity to reward them with a well-earned dose of sugar, or whatever you're having yourself.

Beginning the adventure

- 1 **Make sure you've registered for your ticket** and 'unique access code' on: www.bramstokerfestival.com/sessions/curse-hunters/
- 2 **Download Actionbound:**
<https://en.actionbound.com/download/> (You need IOS 11 or later for Apple or Android 4.4 for Samsung)
- 3: **Search Curse Hunters Bram Stoker Festival** in 'Find a Bound' and input your unique access code once the festival begins on the 30th of October when you are ready to play.
- 4: **Begin!** From here we'll be interacting with you 'in-world' through the ActionBound app.

When you start the game, you will see that there are two types of text: one type for your eyes only, and another which has simpler instructions for you to READ ALOUD to your group. (this will be marked in the App).

Good luck!

It will be fun and exhausting, and we hope this game will fill your young companions with a world of imagination and adventure!

You must accompany your young Curse Hunters at all points to assist and of course... all Curse Hunting and participation is at the players own risk!

Enjoy! Chaos will truly reign.
